Nervous Prostration

Cured by Dr. Miles' Nervine.

Prolonged derangement of the nervous system not only affects the brain and mental powers, but develops disease in some of the vital organs. The most dangerous of these indirect results is when the heart is affected. This was the case of the Rev. N. F. Surface, Fawn River, Mich., who writes under date of Feb. 14, 1897:

"Fourteen years ago I had a slight stroke of paralysis. Overwork brought on nervous prostration. I was exceedingly nervous and the exertion of public speaking caused heart palpitation that threatened my life. I used two bottles of Dr. Miles' Nervine and my heart was better than I ever expected to feel again. I can speak for hours without tiring or having my heart flutter as it formerly did, and I have you to thank that I am alive today."

On sale by all druggists. Dr. Miles' Book on Heart and Nervous Diseases FREE by mail. Dr. Miles Medical Co., Elkhart, Ind. Dr. Miles' Remedies Restore Health.
